HOLLYWOOD ORCHESTRA OPUS EDITION

Q U I C K S T A R T

PRODUCED BY DOUG ROGERS AND NICK PHOENIX

PURCHASE ORDERS

QUICK START INSTALLATION GUIDE

Thank for your purchase! To begin, download the EastWest Installation Center, through which you will be able to download the Software, Libraries, and activate your Licenses.

Step 1: Download and Install the Installation Center

The Installation Center can be downloaded from the ‘Software & Product Updates’ section of the EastWest [Support Center](#). After downloading and installing the package, the Installation Center will open automatically. It is found here:

- MacOS: MacHD/Applications/East West/ EW Installation Center
- Windows: C:\Program Files\East West\ EW Installation Center

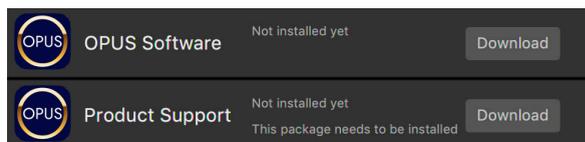

When the Installation Center opens, enter the EastWest account name and password created during registration and allow a moment while it gathers data from your account.

If the Installation Center is already installed, log in and download the latest version by clicking the ‘Download’ button on the update panel located near the top the Installation Center. The installer will launch automatically, allowing you to proceed through the prompts to update your software.

Step 2: Download and Install Opus Software and Product Support

Click the ‘Download’ button in the Opus Software panel that appears near the top of the Installation Center. Once the downloads are complete, the installer will launch automatically, allowing you to proceed through the prompts to install Opus, EastWest’s new sample engine that powers Hollywood Orchestra.

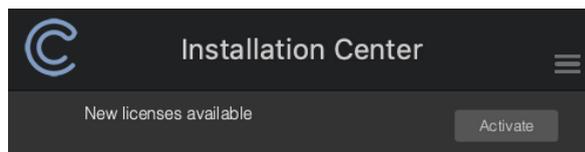

IMPORTANT! Please ensure the Product Support installer has been run! If the Product Support installer does not run automatically after downloading, go to the downloads location on your computer and launch the installer from there, proceeding through the prompts to complete the installation.

Proceed with the next steps to ensure EastWest Libraries are activated and installed for use within Opus.

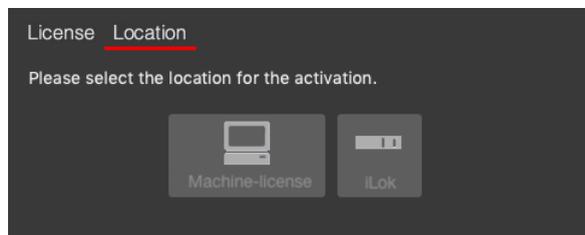

Step 3: Activate the Hollywood Orchestra Opus Edition

Click the “Activate” button near the top of the Installation Center to open the Activation Assistant window, which will lead you through the activation process. Click ‘Next’ to proceed past the Introduction tab, then select the license(s) you want to activate in the License tab and click ‘Next’.

The Location window will give you the option to activate your license on your computer (called a machine-based license) or to a registered iLok security key. Make sure your iLok security key is plugged in if that’s your preferred option.

iLOK If you have an iLok account but you have not connected it to your EastWest account, an Activation Assistant will help link the two accounts. This only needs to be done once.

Step 4: Download Hollywood Orchestra Opus Edition

Each of the 7 libraries that make up the Hollywood Orchestra Opus Edition will appear in the ‘New Downloads’ section of the Installation Center, as well as the Hollywood Orchestrator, EastWest’s powerful new scoring engine.

- Hollywood Orchestrator [**NEW:** Scoring Engine]
- Hollywood Orchestra Strings [**NEW:** 18 Violins and Ensemble]
- Hollywood Orchestra Brass [**NEW:** 2 Trumpets and 2 Trombones]
- Hollywood Orchestra Woodwinds [**NEW:** 3 Flutes, 3 Clarinets, 3 Bassoons]
- Hollywood Orchestra Percussion
- Hollywood Harp
- Hollywood Solo Violin
- Hollywood Solo Cello

Instructions For Existing Users

If the Installation Center detects an existing installation of Hollywood Orchestra, it will only install the new expansion content, not the entire library. A new Opus Instruments set will also be installed, alongside the existing Instruments set (which can be used simultaneously).

The expansion content for this collection of libraries requires approximately 132 gigabytes (GB) of drive space for the Opus Edition Diamond, 15 gigabytes (GB) of drive space for the Opus Edition Gold, and 31 (GB) of drive space for the Opus Edition Gold X (only available for ComposerCloud X subscribers).

Click the download button within the product panel to immediately begin downloading the expansion content into the existing Hollywood Orchestra install directory.

	EW Hollywood Strings Opus Edition	Activated	 40.7 GB
	EW Hollywood Strings Opus Edition Gold	Activated	 7 GB
	EW Hollywood Strings Opus Edition Gold Close	Activated	 14.1 GB
	EW Hollywood Orchestrator	Activated	 46.4 MB

Instructions For New Users

If you're a new user, or there are no existing installations of Hollywood Orchestra detected, begin by deciding on a good place to install Hollywood Orchestra Opus Edition. This collection of libraries requires approximately 944 gigabytes (GB) of drive space for the Opus Edition, 130 gigabytes (GB) of drive space for the Opus Edition Gold, and 242 (GB) of drive space for the Opus Edition Gold X (only available for ComposerCloud X subscribers).

Click the download button within the product panel to prompt a message that asks you to locate the desired installation directory. Navigate to the desired location and click 'Open'. You will be asked if this is the preferred 'Default' location for future installations.

PLEASE NOTE: Umlauts (ä, ö, ü), diacritics (ó, ò, õ, ô, ô, õ etc.) and any non-roman characters can result in the file path not being properly read. This can result in an error after the installation, when the library is in use. Please remove these umlauts and diacritics from your file path!

The Download Process

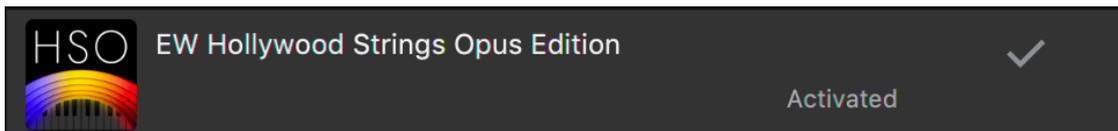

The download process will now begin, with a blue bar displaying its progress. Click the "X" button to pause the download process, and click "Resume" to continue the download where it was left off.

	EW Hollywood Strings Opus Edition Gold	Activated	 12% 
---	--	-----------	--

PLEASE NOTE: The Installation Center will cycle through 100% twice. Once for the initial download of the files, and a second time for the unpacking and installation of the library.

Activated and Ready For Use

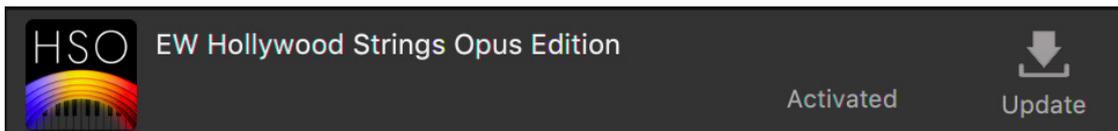

When a product is installed and ready to use, a check-mark is displayed.

Step 5: Update Hollywood Orchestra Opus Edition

If an instrument and/or sample update becomes available for any of the 7 libraries in the the Hollywood Orchestra Opus Edition, or the Hollywood Orchestrator, it will appear in the Installation Center with the downward arrow icon above the word 'Update'.

Simply click the 'Update' icon to download and install the latest update.

IF YOU NEED FURTHER ASSISTANCE

Please visit the [Support Center](#) for:

- Guides to Getting Started
- Frequently Asked Questions (FAQs)
- Software and Product Updates
- Support Videos
- User Manuals

1.4.1 Live Chat

EastWest's Support Center offers Live Chat, the fastest way to reach a Support Team Member to help resolve any technical issues you may be having.

Visit www.soundsonline.com, then click on the red "Chat Now" box that appears in the lower-right corner. Fill in your name and email address, then click "Start the Chat", or if an agent is not available click "Leave a Message" by explaining your issue, and a Support Agent will respond as soon as they're available.

1.4.2 Online Resources

Visit us online for newsletters, trailers, walkthroughs, and more.

- **YouTube:** check out our tutorials, walkthroughs, and trailers.
